

Key features

Mobile dashboards: View mobile versions of dashboards on smartphones and tablets.

Date ranges: Quickly get current or historical views into performance.

Visualisations

Report visualisations: Quickly highlight trends and exceptions in detailed reports using conditional highlighting, trend indicators, colour scaling, and spark lines.

Charts and graphs: Create charts and graphs—then publish them on dashboards or view them alone.

Performance cards: Highlight trends in key metrics using dashboard visualisations that show actual values, period changes, and variance from budget.

Usability

Secure access: Restrict dashboard access to approved users.

Automatic scheduling: Push out scheduled reports on time, every time.

Customised formatting: Easily set fonts, colours, and spacing for reports.

Report exports: Output your reports in HTML, PDF, CSV, or Excel format.

Chart and graph exports: Output your chart or graph in HTML or PDF format.

Flexible delivery: Send scheduled or manual reports to email, to Sage Intacct storage, or to the cloud.

Use report structures to enable dimensions on financial reports.

	Revenue Actual
South	
Florida	7,000
Texas	5,000
Total South	12,000

	Florida Actual	Texas Actual	Total South Actual
Revenue			
Services	2,000	3,000	5,000
Subscriptions	5,000	2,000	7,000
Total Revenue	7,000	5,000	12,000

Dimension structure on report rows.
Dimension structure on report columns.

Create the precise report layouts you need using dimensions across columns and rows.

Key features

Use statistical accounts to gain key insights into your operational data quickly from your dashboard.

Take the next step

Find out how the Sage Intacct cloud financial management solution streamlines operations and provides real-time insights, boosting productivity and growth.
